

Trespa es un laminado de alta presión decorativo para aplicaciones exteriores. Los paneles están constituidos por capas de fibras de madera (papel kraft) impregnadas con resinas orgánicas. Las resinas que recubren las capas superficiales son curadas mediante la tecnología "Electron Beam Curing (EBC)", única de Trespa, a fin de mejorar las propiedades de protección contra la intemperie y la luz, creando un material homogéneo no poroso de mayor densidad y con una superficie decorativa integrada. Los paneles Trespa son retardantes al fuego y tienen la opción de contar con certificado PEFC/FSC.

Características:

Los paneles Trespa son resistentes a la intemperie, cuentan con protección contra los rayos UV, son resistentes al impacto y fáciles de limpiar (incluso graffiti). Resistentes a los rayones, bajo costo de mantenimiento y cuentan con una amplia gama de colores y acabados.

Dimensiones: 1. 2550 x 1860 mm.
2. 3050 x 1530 mm.
3. 3650 x 1860 mm.
4. 4270 x 2130 mm.

Espesor	Peso
8 mm	11.20 kg/m ²
10 mm	14.00 kg/m ²
13 mm	18.20 kg/m ²

Acabados:

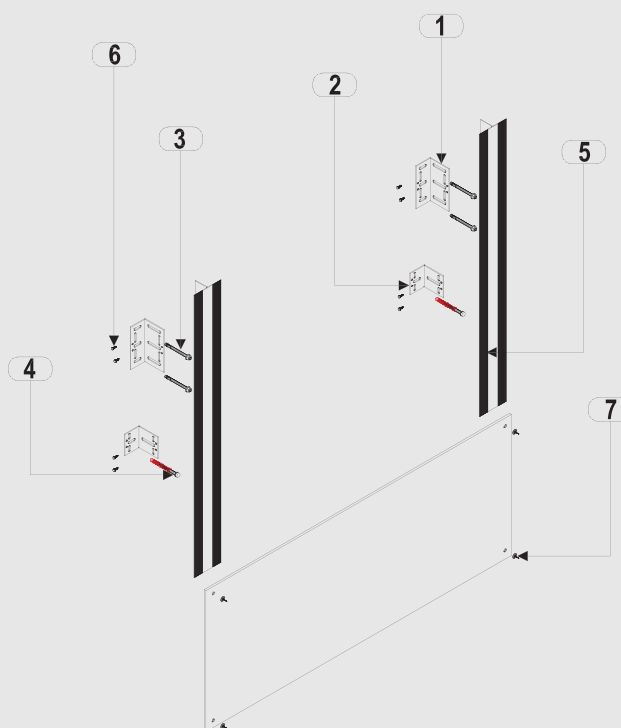

Nota: No todas las combinaciones de acabados son posibles. Para conocer los tamaños, espesores y acabados disponibles de las placas consulte el Manual Técnico en la página de Hunter Douglas México en la sección de Productos Arquitectónicos, Fachadas Ventiladas.

Instalación:

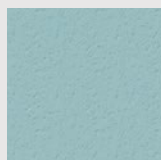

Sistema remachado RM-HD45

Elementos del sistema:

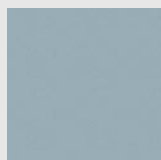

1. Escuadra sustentación de aluminio 150x60x80x3 mm, fijadas a losas de concreto. (Pieza necesaria para la carga gravitacional del sistema).
2. Escuadra retención de aluminio 75x60x80x3 mm, fijadas a muro portante. (Pieza necesaria para las cargas de viento, el muro portante puede ser un PTR, mampostería de block u otro tipo de cerramiento).
3. Anclaje metálico MTA 8x90 acero inoxidable (fijación escuadra sustentación a concreto).
4. Conjunto taco nylon 10x100 acero inoxidable (fijación escuadra retención a muro).
5. Perfil vertical "T 110x50x2 mm". Perfil complementario de refuerzo "L 50x50x2 mm".
6. Tornillo DIN 7504-K 4,8x19 mm acero inoxidable (fijación escuadra a perfil)
7. Remache ala ancha 4,8x16 termolacado color HPL.
